Freelancer with an Italian VAT number — available for contract work

PROFILE

Software Engineer with a degree in Computer Engineering and over 6 years of experience building web and mobile applications in production. I work on PHP (**Laravel**) and **Python** backends, database and API design, **AWS** infrastructure with Docker and CI/CD, and native **Android** apps in Kotlin. I handle projects end-to-end for leading Italian brands, coordinating the development team on the technical side and acting as the client's point of contact for implementation choices.

TECHNICAL SKILLS

Applied AI	LangGraph, RAG, MCP (Model Context Protocol), PyTorch (object detection)
Languages	Python, PHP, Java, Kotlin, JavaScript, SQL, Ruby
Frameworks	Laravel, FastAPI, React, Node.js
Databases	MySQL, PostgreSQL, schema design and migrations
Cloud & DevOps	AWS (EC2, S3, IAM, Textract), Docker, GitHub Actions, CI/CD, self-hosted runners, Linux, Nginx
Mobile	Native Android (Kotlin), Gradle, permission handling, payment integration (XPAY)
Integrations	REST APIs, WhatsApp Business API, Twilio / SMS gateways, Google Wallet & Smart Tap
Practices	Git, code review, Agile/Scrum, technical documentation

PROFESSIONAL EXPERIENCE

Software Engineer Dec 2019 – present
Magnetic Media Network S.p.A. – Bechtle Group · Trezzo sull'Adda (Milan)

- Develop **applied AI** components with Python backends in **FastAPI**: LLM integration with **LangGraph** and **MCP**, RAG pipelines on company knowledge bases, fine-tuning of object detection models in **PyTorch**.
- Develop and maintain **CRMs and back-office systems in PHP (Laravel)**: database modelling, production and consumption tracking modules, REST APIs for external clients.
- Manage **AWS infrastructure**, Docker containerisation and **CI/CD pipelines with GitHub Actions**, including self-hosted runners for deployments to machines behind a VPN.
- Build **native Android apps in Kotlin**, from permissions to release, with XPAY payments and Google Wallet / Smart Tap digital badges.
- Integrate third-party services — **WhatsApp Business API**, Twilio, SMS gateways and document data extraction with **AWS Textract** — handling onboarding, compliance and troubleshooting.
- Coordinate the **development team** on the projects I run: task assignment and follow-up, technical support for colleagues, code review, estimates and architecture design.

Software Developer Jan 2019 – May 2019
Morescreens S.r.l. · Kilometro Rosso, Bergamo

- Developed a web application for **video streaming** playback, with a **Ruby** backend.
- Modelled and queried **PostgreSQL** data to generate CDN traffic statistics.
- Set up and maintained **Debian Linux** servers for the development and production environments.

EDUCATION

Bachelor's Degree in Computer Engineering Sep 2019 – Oct 2024
University of Bergamo

Technical High School Diploma in Computer Science Sep 2014 – Jul 2019
I.I.S. Marconi, Dalmine (Bergamo)

CERTIFICATIONS, LANGUAGES AND VOLUNTEERING

Certifications — BLSD course / use of automated external defibrillators (AED).
Languages — Italian (native); English (intermediate, B1/B2). **Volunteering** — Regular blood donor with AVIS. **Driving licence** B, own car.
I authorise the processing of the personal data contained in this CV pursuant to Regulation (EU) 2016/679 (GDPR) and Italian Legislative Decree 196/2003.
